Git (GitHub, Bitbucket)
CI/CD Pipeline

EXPERIENCE

CureMD | iOS Developer – Sr. Software Engineer

November 2022 - Present | Lahore, Pakistan

- Developed and maintained high-performance enterprise health care applications using Swift and SwiftUI. Played a key role in ensuring code qualitythrough rigorous code reviews. Successfully enhanced functionality and streamlining user experience.

Soliton Technologies | iOS Developer - SOFTWARE ENGINEER

September 2019 – October 2022 | Lahore, Pakistan

- Experienced in developing and maintaining iOS apps, including UI designs, integration of APIs, and debugging.
- Stayed up-to-date with the latest iOS development trends and best practices, continuously improving skills and applying new technologies to enhance app functionality.

PROJECTS

LEAP APP

- Collaborated with a diverse team of 20 professionals, including our stakeholders and backend team, to develop the LEAP App.
- Serving a user base of 5,000+, the LEAP App is transforming patient care in health industry, fostering a global community of shared ideas and connections.

MOTOR CAR | APP STORE LINK

- Embark on an exceptional car-buying journey with our iOS app, developed single-handedly.
- With a robust user base of over 10,000 users, this application seamlessly integrates advanced features, presenting a sleek UI, and enabling users to easily add cars for sale or rent, offering an unparalleled car purchasing and renting experience.

PERSIVIA PATIENT CARE | APP STORE LINK

- Designed and led the development of a cutting-edge patient app with a growing user base of over 5000+ users, enabling seamless access to medical records, easy appointment bookings, and integrated telehealth consultations with video and audio call features.

PERSIVIA CARE PROVIDER | APP STORE LINK

- Created an innovative doctor app with a growing user base of over 1,000+, empowering physicians to seamlessly manage patient records, book appointments, and conduct video, audio, and telehealth calls for enhanced patient care.
